

Punkte pro richtiger Teilantwort

Um bei einer Multiple Response Aufgabe Punkte pro richtiger Teilantwort zu vergeben, muss bei der Frage die Option **Enable item scoring** aktiviert werden. Anschliessend kann bei den einzelnen Antworten festgelegt werden, wie viele Punkte pro richtigem Treffer vergeben werden sollen:

The screenshot displays the Canvas LMS question editor interface. The 'Properties' tab is active, showing the 'Answers' section. The 'Enable item scoring' checkbox is highlighted with a red box and an arrow. Another arrow points from the 'Answer-specific feedback' section to a detailed view of the 'Score' field, which is also highlighted with a red box and a tooltip explaining that when item scoring is enabled, each correct answer is scored to give the question a total score.
