

Theme picker

Stellen Sie sicher, dass ein Grundlayout (Base Theme) ausgewählt ist:

The screenshot shows the 'Swiss Learning Hub' interface. On the left is a dark sidebar with four buttons: 'Save' (red), 'Save as preset' (red outline), 'Restore to preset' (grey), and 'Cancel' (grey). The main content area has a breadcrumb trail 'Dashboard > Course structure > Theming' and a 'New Course Title' field. Below this is the heading 'Set the style for your course'. A section titled 'Choose theme' contains instructions and an important note. It features two dropdown menus: 'Base theme:' and 'Preset:'. The 'Base theme:' dropdown is open, showing 'Select an option', 'Select an option', and 'Default Theme' (highlighted in blue). A red rectangle highlights the 'Base theme:' dropdown and its options. A tip at the bottom explains that the selected theme is not editable and provides a hint on how to save it as a preset.

Swiss Learning Hub

Dashboard > Course structure > Theming

New Course Title

Set the style for your course

Choose theme

Select the base theme for your course and apply any saved 'preset' styles using the two dropdowns below.

IMPORTANT: Changing the options here will replace any unsaved selections you've made in the form below; make sure there's nothing you want to keep!

Your currently selected theme is not editable.

Base theme: Select an option ▼ **Preset:** No preset ▼

Tip: You can save the currently selected theme as a 'preset' for quick access later. Do this using the button in the sidebar.

Nach Auswahl des "Default Themes" haben Sie zudem die Möglichkeit die Farbschemas Ihres CI/CD's anzupassen. Und die Anpassungen für künftige Modulproduktionen als Preset mit der Schaltfläche "Save as Preset" zu speichern:
