

# Swiss Learning Hub integration

The purpose of this documentation is to describe available integrations of the Swiss Learning Hub.

Integration	Description
<a href="#">Detail report</a>	In the Swiss Learning Hub, a detailed report can be generated per learning content if the report definition and certain SCORM attributes are provided by the learning object.
<a href="#">File based API</a>	File based user import in XML or JSON format over SFTP.
<a href="#">LTI</a>	Learning Tools Interoperability (LTI) is an education technology specification developed by the IMS Global Learning Consortium, which specifies a method for a LMS to securely exchange information with external systems.
<a href="#">SAML 2.0</a>	Single sign-on (SSO) with SAML
