# I am logged in, but cannot start the modules

## 1. Book module

As soon as you are logged in, you must first assign the module in the desired language using the **‘Book’** button.

***Attention:*** *If you do not see a ‘Book’ button, it is possible that you are using an outdated operating system version or an outdated browser. The learning platform is optimised for the* ***latest versions of Windows and Mac****. It is therefore possible that the learning platform does not function correctly or is not displayed correctly with outdated versions.*

## 2. Start module

As soon as you have clicked on ‘Book’, you can then start the module by clicking the **‘Play’** button.
