My username or password is not accepted

If your username or password is not accepted, there may be several reasons for this:

- **Missing registration**
  Please make sure that you have already registered. You cannot log in to the system without prior registration.

- **Incorrect user name**
  If you have already registered, you must ensure that you **use the email address with which you registered as your username** when logging in. And you must use the password you set when you registered as your password.
